FP - 40
Spin Dryer

Key Features

35 Pound Capacity
Three Cycle Speeds & Timers
Stainless Steel Construction
Automatic Start and Lid Open

The FP-40 is the next evolution of our reliable FP-35 workhorse, delivering the same high performance while offering advancements in compact centrifuge design. Specifically engineered for drying a wide range of food products, the FP-40 features easily accessible controls, allowing operators to effortlessly select the appropriate speed and cycle times for each product. The drying process begins automatically once the lid is closed and opens at the end of the cycle, enhancing productivity.

With a compact footprint and durable stainless steel construction, the FP-40 is an ideal spin dryer for commissaries, institutional kitchens, and food processing facilities. It integrates seamlessly with our array of food washing equipment, including the Helical Wash Tanks, Basket Shower Wash, and Dip Tanks. The FP-40 is perfect for drying leafy greens, vegetables, and other dewatering applications.
